

WALL PANELING

States' wall paneling features natural wood veneers finished with ultraviolet cured coatings, making them as durable and resilient, as they are beautiful. Forty-four distinct standard styles of 4' X 8' panels are offered in thicknesses from 5/32" through 3/8" thick.

The line includes eleven different species of real wood, stained, top coated and grooved in one of seven patterns.

Looks range from traditional beaded patterns to contemporary ungrooved panels.

In addition to residential applications, these panels are widely used in light commercial and institutional applications, as well as in manufactured offices.

States' Fine Hardwoods,
with Beautiful and Durable Finishes.

Real Wood. Real Easy

Ingenuity. It's in everything we do.

All States Industries paneling is made from natural wood veneers. States' exclusively cured topcoats which are impervious to household stains and solvents. States Industries paneling is made in America by American craftsmen.
