

# TruYield

## Oversized Panels Save Money and Reduce Waste

TruYield panels are oversized to 49" x 97", allowing you to utilize more of each panel by cutting the exact sizes you need. You'll reduce waste, save money and improve your yield after the panels arrive on your manufacturing floor.

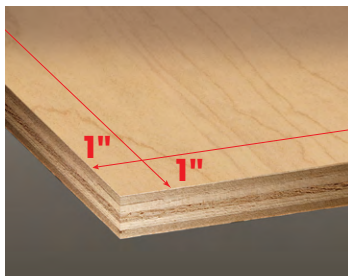

Specify your TruYield panel sized to 49" x 97" or 49" x 121" with veneer core or ArmorCore.

### 1" oversize panels (49" x 97") are available in the following constructions:

- Veneer Core Blank: ½" and ¾" only (7/16" and 11/16" blanks)
- ArmorCore: ½" and ¾" only AND must be modified or calibrated
- Overlay-grade ArmorCore
- Thin MDF: ≤ ¼"
- Particleboard: ¾" and 5/8"

### Constructions that are NOT available include:

- Veneer Core 1-Step
- Composite (other than those listed above)
- ArmorCore 1-Step (panel or overlay-grade)
- ApplePly

*TruYield panels allow for efficient use of a panel and less waste, increasing your profits.*
