

RIDGEMONT COLLECTION

By  STATES+

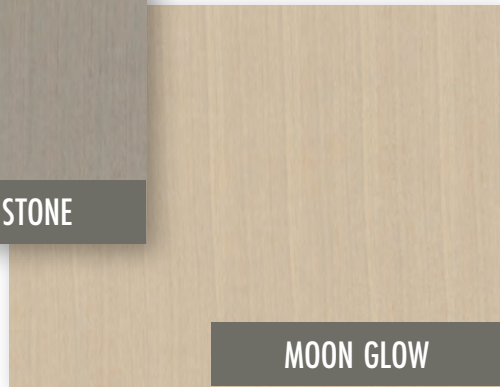

The Ridgemont Collection draws its inspiration from the raw, untamed beauty of nature. It captures the essence of towering, unyielding peaks and the intricate dance of rivers and streams that carve through valleys and high deserts.

RIDGEMONT COLLECTION

The Ridgemont Collection of veneer panels is the pinnacle of understated sophistication. Drawing inspiration from the raw, untamed beauty of nature, this collection captures the majesty of towering peaks and the intricate weaving of rivers and streams that carve valleys.

FINISH

Featuring NOVA environmentally friendly UV-cured coatings manufactured in our ultra-matte sheen, Ridgemont veneer panels are durable and hold up to the wear and tear of everyday life.

QUALITY

Like all States Industries panels, The Ridgemont Collection is rigorously tested for quality assurance. Our veneer panels are manufactured in the United States to ensure the best product possible.

REAL WOOD

All Ridgemont Veneers are made from real wood. No two pieces of wood are alike.

Natural wood variations may cause color and grain differences between these samples and your finished casework. These variations are the normal expression of nature, making each panel differ slightly in grain, texture, and color. Consequently, a reasonable tolerance must be allowed between samples and finished product.
